

# 2024 Standard Choice Quality Commercial (IL) Drug Formulary

**QuartzBenefits.com**

This formulary does not apply to Quartz State and Local Government members or Quartz BadgerCare Plus members. State and Local Government members should call **Navitus** at **(866) 333-2757** or visit [www.navitus.com](http://www.navitus.com) for information about your prescription drug benefits.

BadgerCare Plus and/or Medicaid SSI members must call the **Wisconsin Department of Health and Family Services** at **(800) 362-3002** or visit [www.forwardhealth.wi.gov](http://www.forwardhealth.wi.gov) for information about your prescription drug benefits.

December 2, 2024

# 2024 Quartz Standard Choice Quality Commercial (IL) Drug Formulary Information

This Formulary serves members with an employer-sponsored health plan (at least 50 employees) based in Illinois whose pharmacy benefits have a three or four tier cost share structure and an additional value tier cost share. Some plans may have a deductible that must be met before tiered cost shares apply.

This document is to be used as a tool to help you understand how specific drugs are covered under the Prescription Drug Formulary and is not a guarantee of coverage. The most recent version is available at [www.QuartzBenefits.com](http://www.QuartzBenefits.com), or can be requested in hard copy format by calling (800) 362-3310. An online formulary lookup tool is also available. For a detailed explanation of the pharmacy benefit, refer to the prescription drug benefit [brochure](#) available on the website or your Schedule of Benefits.

The formulary is the list of medications covered by Quartz through the prescription drug benefit. Some state and federal laws require Quartz to cover specific drugs for some benefits that are excluded for others. This formulary includes drugs covered for ALL Illinois fully insured large group commercial policies. Certain drugs on the formulary may not be covered by your specific plan.

The differences are based on what type of plan you have and / or:

- if your benefit plan meets the requirements of the Affordable Care Act

This means that even though a drug is listed on this formulary, it may not be covered by your specific benefit plan. Please see your Quartz Prescription Drug Benefit Rider or contact Member Services at (800) 496-7509 to verify your coverage.

For information about drug coverage on the medical benefit, please go to the [clinic-administered drug](#) page on the Quartz website.

## Using the Formulary Document

To search the document press "CTRL-F" to open the "Find" box at the top of the document and enter the drug name. The name may be listed multiple times in the document. Press "Enter" to tab through each entry.

Each page of the formulary has three columns: **Drug Name**, **Drug Tier**, and **Notes**. Drugs are grouped by therapeutic category and class and listed alphabetically within the class. Brand names are listed in all capital letters. Generic drug names are included in lowercase font. Drugs that do not have Food and Drug Administration (FDA)-approved generic formulations are only listed by brand name. Biosimilars, newer formulations of biologic drugs (Fulphila, Semglee (yfgn), etc.), are also listed in capitalized text.

The **Drug Tier** column identifies which cost sharing tier applies to the drug and **Notes** contains indicators that may limit coverage of specific drugs. Medications listed as T1, T2, or T4P are preferred while medications listed as Tier 3 and T4NP are nonpreferred.

## General Drug Coverage Concepts

**90-Day Supplies:** Drugs **MAY** qualify for a 3-month supply fill at the pharmacy. Three copays will be charged for the 3-month supply. All additional restrictions apply. Drugs included in the Specialty Pharmaceuticals Program are not eligible for Choice90.

**Exclusions:** Some drug classes are not covered by your Quartz prescription benefit plan. Examples of these include hair loss drugs, sexual enhancement drugs, infertility drugs, most over-the-counter drugs, cosmetic treatments, and nutritional supplements / medical foods. Refer to your Prescription Drug Rider or the Certificate of Coverage to view your specific exclusions. Excluded drugs are generally not listed on the formulary.

**Generic Substitution Policy:** Quartz requires the use of generic medications and biosimilars when they are available. When a generic or biosimilar is available for a drug, the brand product or reference biologic is Nonformulary and not covered. Requests for coverage of a brand-name product (including Reference Biologics) follow the Exceptions Process and coverage determinations are based on Medical Necessity. If your healthcare practitioner feels it is medically necessary to receive the brand-name product, a formulary exception request must be submitted for review.

**Oral Oncology Drug cost share:** For drugs taken at home to treat cancer, the state of Illinois has determined the maximum cost share to be \$0 after any benefit deductible has been met. This maximum cost share amount applies regardless of what tier the drug is listed at on the formulary document.

**Over-the-Counter Drug (OTC):** Drugs that do not require a prescription from a doctor are not covered under the pharmacy benefit unless specifically listed on the formulary as approved by the Quartz Pharmacy & Therapeutics Committee.

**Preventative Medication Coverage:** Some laws, such as the Affordable Care Act (ACA), require that certain drugs need to be covered at a \$0 cost share for members. Quartz covers these drugs within the guidelines recommended by the United States Preventative Services Task Force (USPSTF). Restrictions, including age limits, quantity limits, prior authorization, and days' supply may apply to some drugs. In some cases, the pharmacy must indicate that the drug is being used for a specific diagnosis when filling the prescription for the \$0 cost share to apply. Coverage indicators in the **Notes** column will describe what uses are included.

**Tier 4 cost share (T4P/T4NP):** Members may have benefits that require a Tier 4 cost share for some drugs. **For members without a 4-tier benefit, drugs designated as "Tier 4" will default to their Tier 1 cost share for preferred generic drugs, the Tier 2 cost share for preferred brand drugs, and to the Tier 3 cost share for**

**nonpreferred drugs.** benefits may process differently. Please refer to your Schedule of Benefits for your specific benefit.

**Value Tier/RX Outcomes (VBB):** Some drugs have been shown to improve the overall health of people with health problems like high blood pressure, high blood sugars (diabetes mellitus), and breathing difficulties (asthma) when taken daily. For members whose plan includes the Value Tier/RX Outcomes benefit, the drugs noted as VBB in the **Drug Tier** section will process with a value tier copay. This only applies to plans with the value tier benefit. Please refer to the plan Summary of Benefits documents for your specific benefit.

## Formulary Coverage Indicators

Specific requirements for coverage of some drugs are noted in the formulary listing in the Notes column. An explanation of each type of requirement or parameter is listed below.

**Age Limits (AL):** Drugs with AL are covered without prior authorization or at specific cost shares within the designated age limits. Consideration for coverage of medications with age limits may be made for those outside the age limits by submitting a medication coverage request form.

**Quantity Limits (QL):** Drugs with a QL are limited to a specific quantity (number of pills, grams, etc.) when filled at the pharmacy. For medications with a quantity limit, if a member requires a higher quantity per month, prior authorization is required.

**Restricted Medications (PA):** Drugs with a PA are restricted and require an approved prior authorization for coverage. Quartz requires the submission and approval of a Medication Coverage Request form before coverage is granted for restricted drugs. The *Medication Coverage Request Form* can be obtained through Member Services or via the Quartz website at [www.QuartzBenefits.com](http://www.QuartzBenefits.com). Please note: *The Medication Coverage Request Form* can also be used to submit an exceptions request for nonformulary (or not covered) drugs.

Requests can be submitted via fax to (844) 403-1029, by phone, or can be mailed to the address on the form. Your doctor may also be able to submit an electronic request (ePA) directly from the electronic health record (EHR) they use. The information will be reviewed, and both the requesting physician and the member will be notified regarding the coverage decision. If you would like to discuss the specifics of a medication request decision with a pharmacist, or have general questions about the prior authorization criteria, please call Member Services at (800) 496-7509.

**Specialty Pharmaceuticals Program (SP-QTZ or SP-ORX):** Specialty pharmaceuticals encompass a growing number of drugs that are usually high-cost, may involve complex treatment regimens, have special handling, storage, or delivery needs, may require injectable or infusible administration, are for rare diseases or therapeutic categories such as oncology, autoimmune, or inflammatory diseases with long-term, severe symptoms, and may have limited product availability.

Specialty drugs are listed with an SP-QTZ or SP-ORX in the formulary **Notes** column and are required to be obtained from a specific specialty pharmacy participating in the Quartz Specialty Pharmaceuticals network for coverage. The UW Health specialty pharmacies, Gundersen Health System pharmacies, and Aurora specialty pharmacy are currently participating in the Quartz Specialty Pharmaceuticals network for drugs marked as SP-QTZ. For information about these pharmacies, see the [Specialty Pharmaceuticals Program](#) section on the Quartz website. Drugs marked with SP-ORX must be filled at the Optum specialty pharmacy. For additional information on Optum's specialty pharmacy visit [specialty.optumrx.com/new-fill](http://specialty.optumrx.com/new-fill).

Most of the drugs included in Quartz Specialty Pharmacy network have pharmacist-run management programs to maximize patient knowledge and outcomes from these medications. This may include additional follow-up from the pharmacist or partial dispensing protocols.

**The Quartz Specialty Pharmacy program DOES NOT apply to medications administered in your physician's office, a hospital, or other health care facility. Coverage for medications administered in a health care facility falls under your medical benefit and may be subject to other requirements.**

**Step Therapy (ST):** Drugs with a ST require step therapy, where a person must first try a prerequisite medication(s) before receiving coverage for the listed ST products. If step therapy criteria are not met through previous drug claim fills for the first line agents, then ST drugs require prior authorization. Members without a claims history or who have not filled the step drugs for an extended time will need to submit a Medication Coverage Request form for consideration of coverage.

**Zero Dollar Cost Share Before Deductible (HDHP):** Drugs with a HDHP listing are covered at a \$0 cost share before a plan deductible has been met for some Internal Revenue Service (IRS) qualified high-deductible health plans (HDHP) with a health savings account (HSA). Please contact Member Services at (800) 496-7509 to check to see if your plan has this benefit.

### **Where to find additional information when you have questions:**

Topic	Where Available
