2027 Provider Directory

For Quartz West - State of Wisconsin Group Health Insurance Program

Care at your fingertips

With your Quartz plan, you have access to a trusted network of doctors and facilities. The Quartz Provider Directory can help you easily find an in-network doctor and other details about how and where to get care.

The information in this directory applies to most Quartz members. Some health benefits vary by plan. Please read your plan documents to confirm your coverage details.

Note:

- Directory information may change as providers join or leave the network, move, or retire.
- Before getting care, be sure to check that the provider you want to see is in your network and taking new patients.

Please visit **QuartzBenefits.com/FindADoctor** for the most up-to-date list of providers in your network.

If you'd like a free, printed copy of our provider directory, call Quartz Customer Success, and they will mail one to you.

Primary coverage area for Quartz West Network

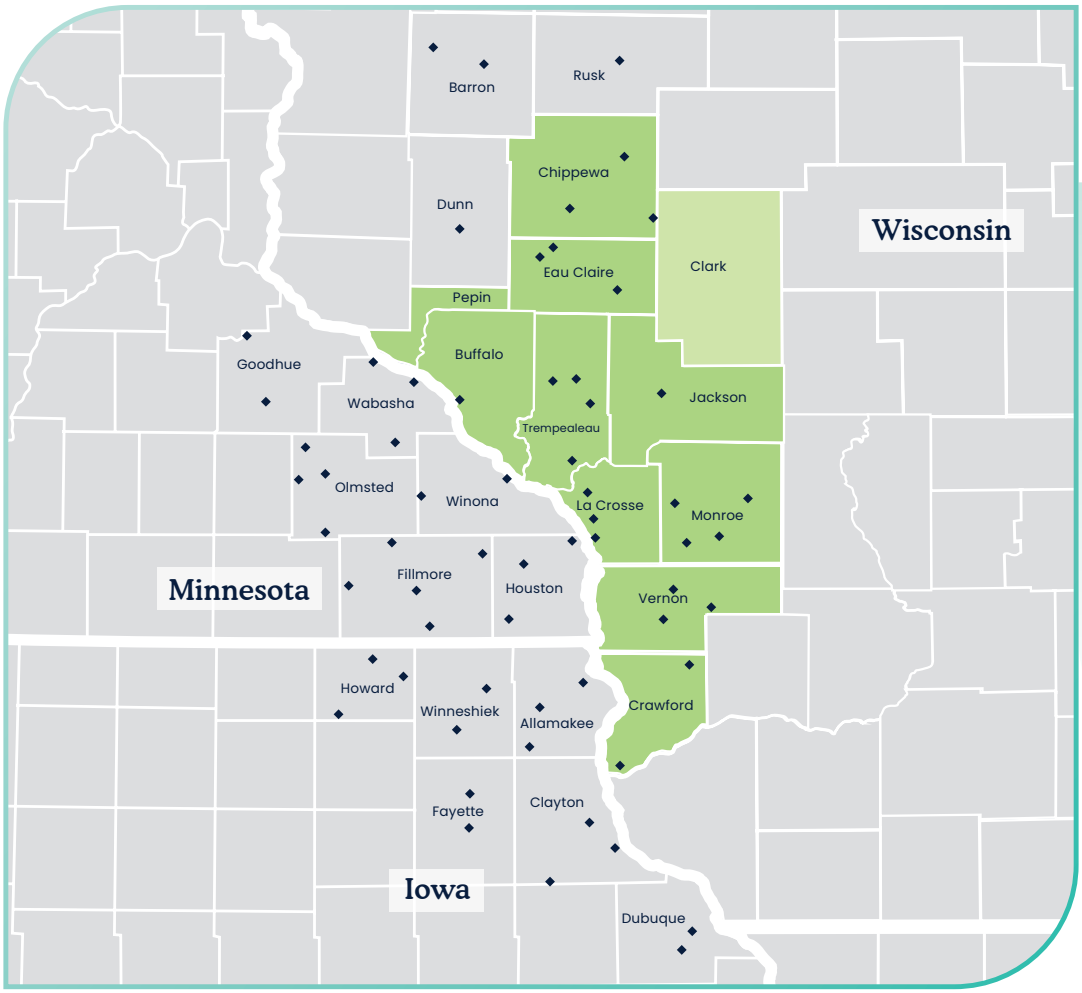

Your provider network

Your plan includes access to health care providers in our network. A network is a group of doctors and medical professionals who have an agreement with Quartz to treat our members. They'll bill us for your care. If we don't have a contract with a provider, they're considered out-of-network.

Quartz has several different networks. Your network is listed on your ID card. You can search for providers in your network at **QuartzBenefits.com/FindADoctor**. Simply pick the network name listed on your ID card, and a list of in-network providers will appear in the search results.

If you don't see a provider on the list, they are out-of-network and not likely to be covered under your plan. Some Quartz plans will cover services from doctors outside of your network. If you're unsure whether a provider is in-network or out-of-network, please call their office to check or contact Quartz Customer Success for help.

The map below shows the primary coverage area for your network. You'll see the counties where most in-network doctors are located. There may be other in-network providers outside of those counties, too. Use our Find a Doctor tool on our website to check.

MAP KEY

- West Network coverage area — your primary care clinic must be located in one of these counties
- West Network coverage area county with limited provider availability
- Available in-network providers

Establishing primary care

QuartzBenefits.com/FindADoctor

We ask you to choose a primary care provider (PCP) or primary care clinic (PCC) upon enrollment. If you don't, we'll assign you a PCC near your home. You can make a new selection at any time, and family members don't need to have the same provider or clinic. Once you've chosen a PCP who best meets your needs, you can update your record via MyChart.

Where to get care

Choose the right care at the right place based on your situation. For all types of care, check to see what your plan covers, especially before being treated by someone other than your PCP. You can see all your benefits in MyChart (**QuartzMyChart.com**).

Prior authorization

Most of the time, you won't need to check with Quartz before getting care. In some situations, though, you might need our okay first before we cover the costs. This process is called prior authorization. You, your doctor, or your nurse will fill out a General Prior Authorization Request Form and send it to Quartz for our review. We will let you and your provider know if the service is covered by your plan (approved) or not covered (denied). If the request is denied, we will tell you how you can appeal the decision. Learn more about prior authorizations and download the forms at **QuartzBenefits.com/PAForms**.

Referrals

As a Quartz member, you'll never need a referral to see your PCP or other providers within your network.

Note:

- Some specialists may only accept you as a patient if you've been referred by your PCP.
- When getting specialty care, you may need approval from Quartz ahead of time to be sure the services are covered by your plan.

Eye clinic	An eye clinic is a medical facility specializing in diagnosing and treating eye-related conditions, often including vision care and eye exams.
Family planning center	A family planning center, also known as a reproductive health clinic, is a health care facility that provides a range of services and information related to reproductive health and family planning. These centers typically offer services to individuals and couples who are seeking assistance with planning and spacing their pregnancies, as well as those who wish to prevent or manage sexually transmitted infections (STIs).
Home health	Home health care is a wide range of health care services that can be given in your home for an illness or injury. Home health care is usually less expensive, more convenient, and just as effective as the care you get in a hospital or nursing home (skilled nursing facility).
Home infusion	Home infusion therapy involves the intravenous or subcutaneous administration of drugs or biologicals to an individual at home. The components needed to perform home infusion include the drug (for example, antivirals, immune globulin), equipment (for example, a pump), and supplies (for example, tubing and catheters).
Hospice	Hospice care focuses on a person's last six or less months of life. When curative treatment is no longer an option, hospice professionals work to make the patient's life as comfortable as possible. Hospice care includes palliative care because the goal is to make the patient as comfortable as possible for the time that remains.
Hospital	A hospital is a healthcare facility that provides medical, surgical, and emergency care to patients. Hospitals are staffed by healthcare professionals such as doctors, nurses, and specialists, and they may offer inpatient care (where patients stay overnight) and outpatient services (where patients receive treatment without being admitted). Hospitals

	typically provide diagnostic testing, treatment, surgeries, and specialized medical services.
Infusion therapy	In medicine, infusion therapy deals with all aspects of fluid and medication infusion via an intravenous or subcutaneous application. A special infusion pump can be used for this purpose. A fenestrated catheter is most frequently inserted into the localized area to be treated.
Inpatient rehabilitation	An inpatient rehabilitation facility is a free-standing rehabilitation hospital or a rehabilitation unit in an acute care hospital. They provide an intensive rehabilitation program and patients must be able to tolerate three hours of intense rehabilitation services per day.
Massage therapy	The manipulation of the muscles and other soft tissues of the body (as by stroking, kneading, or rubbing with one or both hands or an instrument) by a massage therapist for therapeutic purposes (as to relieve pain, promote healing, or improve physical functioning).
Narcotic treatment services	Narcotic Replacement Therapy (NRT) is a comprehensive treatment with synthetic opiates approved by the United States Food and Drug Administration (FDA) for opiate-addicted patients. Authorized narcotic replacement medications are methadone, buprenorphine, naltrexone, and levo-alpha-acetylmethadol (LAAM). They are available to patients' receiving treatment in a licensed Narcotic Treatment Program (NTP).
Nursing home/ Skilled nursing facility	Nursing homes, also called skilled nursing facilities (SNFs), provide a wide range of health and personal care services. Their services focus on medical care more than most assisted living facilities. These services typically include nursing care, 24-hour supervision, three meals daily, and assistance with everyday activities.
Open MRI	Open MRIs are configured to provide improved patient comfort while taking images inside the body. They have magnets above and below the patient and wide-open sides.
Orthopedics	A branch of medicine focused on diagnosing, treating, preventing, and rehabilitating conditions and injuries involving the musculoskeletal system, including bones, joints, muscles, ligaments, tendons, and nerves (such as tendons and ligaments).
Pharmacy	A pharmacy is a store or healthcare facility where prescription medications are dispensed and sold by licensed pharmacists. Pharmacies may also provide over-the-counter medications, health supplies, immunizations, and medication counseling.

Physical therapy	The treatment of disease, injury, or deformity by physical methods such as massage, heat treatment, and exercise rather than by drugs or surgery.
Podiatry	Podiatry is the branch of medicine focused on diagnosing, treating, and preventing conditions affecting the feet, ankles, and lower legs. Healthcare professionals in this field are called podiatrists. Podiatry care may include treatment for foot pain, injuries, bunions, diabetic foot conditions, infections, nail disorders, and problems related to walking or balance.
Portable X-ray supplier	Portable X-ray suppliers provide diagnostic imaging services at patients' locations - most often residences, including private homes and group living facilities, such as nursing homes - rather than in a traditional clinical setting, such as a doctor's office or hospital.
Practice location	A practice location is the health care facility where a physician spends the largest number of hours per week engaged in patient care. They may practice additional hours at other locations, too.
Radiology	Radiology is a medical specialty that uses imaging technologies, such as X-rays, CT scans, and MRIs to diagnose and treat diseases.
Renal dialysis unit	A ward where individuals with kidney failure receive dialysis treatment to remove waste products and excess fluid from their blood. Usually, outpatients may stay overnight if needed.
Sports medicine clinic	A sports medicine clinic is a healthcare facility that specializes in the prevention, diagnosis, treatment, and rehabilitation of injuries and conditions related to physical activity, exercise, and sports.
Telehealth	A remote scheduled appointment with a provider during clinic hours using a telephone or video chat.
Urgent care	Urgent Care provides immediate medical services in an outpatient care location for treating acute and chronic illness and injury.
Virtual Visit	An on-demand consultation with a provider using a computer or mobile device, no appointment is needed. May also be referred to as an e-Visit.

Important Information about the Provider Directory

This directory was developed to help you easily find health care providers to meet your unique needs. It contains general information that would apply to most Quartz members. However, health benefit plans vary - please read your certificate of coverage to determine what services and supplies are covered. Note:

- Information in this directory may change as providers join or leave the network, move or retire.
- You may dispute out-of-network charges if a provider was listed as in-network prior to the provision of care.
- Quartz does not use criteria such as quality measures, member experience measures or cost-related measures to select practitioners for participation in Marketplace silver tier plans.
- Quartz does not use criteria such as quality measures, member experience measures, patient safety measures or cost-related measures to select hospitals for participation in Marketplace plans.
- Before getting care, verify the provider you choose is still in Quartz's network and is accepting new patients.

Important notice to all POS enrollees – Before scheduling appointments, Quartz strongly encourages you to contact us to verify the status of the providers involved in your care. Such information may influence your selection of a provider and affect the level of copayment, deductible and coinsurance amounts applicable to the care you receive. The participating providers in your network may change during your plan year. Please send a message to Quartz Customer Success through the message center within MyChart at QuartzMyChart.com, call (800) 362-3310 or email CustomerService@QuartzBenefits.com to learn more about the participating providers in your network and the financial implications of receiving care from non-participating providers or to dispute out-of-network charges if a provider was listed as in-network prior to the provision of care.

Enrolling in Quartz HMO plan does not guarantee services by a particular provider on this list. If you wish to be certain of receiving care from a specific provider listed, you should contact that provider to ask whether or not the provider is still a Quartz provider and whether or not the provider is accepting additional patients.

Questions? Send us a message through MyChart at QuartzMyChart.com or call Quartz Customer Success at (844) 644-3455.

If you are enrolled in an Illinois policy, you may also reach out to the Illinois Office of Consumer Health Insurance (OCHI) by visiting their website at https://idoi.illinois.gov/, emailing them at DOI.Complaints@illinois.gov, or calling them at 877-527-9431.
