

Small Group/Individual & Family Safe Harbor - \$0 preventive drug list

Effective 3/1/25

One of the benefits of having a high deductible health plan (HDHP) is that members feel more control over their health care costs. It can, however, make some members hesitant to continue taking necessary preventive drugs because of the cost of the medication. Typically, with a HDHP, benefits are provided after the deductible has been met. To ensure Quartz members with a HDHP have support for preventive drugs, we have created a list of preventive medications based on guidance from the U.S. Treasury Department/IRS. The medications on the list below, known as the Safe Harbor - \$0 preventive drug list, are exempt from the deductible and have 100% coverage with \$0 out-of-pocket costs, saving you money while helping to keep you healthy.

Please note:

- This list may not include all drugs considered preventive for every health condition for which a preventive drug may be prescribed
- We cannot guarantee which drugs will continue to satisfy U.S. Treasury Department/IRS definitions for preventive medications
- Based on your health plan, utilization management (i.e., prior authorization, step therapy, and quantity limits) may apply to the medications listed below
- Drugs that are only available and covered as a generic are noted with an *
- Certain dosage forms or strengths of a medication may not be \$0 even though the drug name appears on this list
- Devices are available from many different brands. Since Quartz covers most brands, we do
 not list each available device. Go to QuartzBenefits.com/Formulary or call Optum Rx
 Member Services to confirm if a specific brand of the device is covered
- We may not cover certain products or therapeutic categories
- Generic or brand status of drugs is subject to change due to updates in the market
- This list is subject to change without prior notice

Questions? Please visit QuartzBenefits.com/Formulary to review the medications on our formulary, or contact Optum Rx Member Services at (800) 496-7509 (TTY: 711) if you have any questions about coverage.

Condition	Drug Class	Generic name	Brand name
Asthma and COPD	Corticosteroids	Budesonide solution	
		Budesonide/formoterol	Symbicort, Breyna
		Beclomethasone dipropionate	Qvar Redihaler
		Fluticasone furoate	Arnuity Ellipta
		Fluticasone propionate diskus,	
		Fluticasone propionate HFA	
		Fluticasone/salmeterol diskus,	Advair HFA, Wixela,
		Fluticasone/salmeterol HFA	
		Fluticasone/vilanterol^	Breo Ellipta
		Mometasone furoate	Asmanex
	Devices	Inhaler assist devices, spacers	Various brand names
