State of Wisconsin Group Health Insurance Program

Offered by Quartz Health Benefit Plans Corporation. ©2021 Quartz Health Solutions, Inc. • QA01507 (0721)

Our goal is to help you live your best life through access to affordable, high-quality care. That's why your Quartz plan features access to top providers who are committed to your health and well-being.

Our provider directory has general information that applies to most Quartz members. However, health benefit plans vary. Please read your plan documents to see what's covered.

**Note:**

- ▶ Information may change as providers join or leave the network, move, or retire.
- ▶ Before getting care, check that the provider you want to see is in your network and is taking new patients.
- ▶ Quartz does not use specific quality, member experience, or cost-related measures to select providers or hospitals to participate in the network.

For the most up-to-date list of care providers in your Quartz network, visit [QuartzBenefits.com/findadoctor](https://www.QuartzBenefits.com/findadoctor). Call Quartz Customer Service if you would like a free, printed copy of our provider directory mailed to you.

## Quartz Central Network Service Area

### YOUR PROVIDER NETWORK

Your health insurance includes access to in-network providers. A “network” is a **group of doctors and other medical providers who have agreed to provide services to Quartz members**. They will bill us for your care. If we do not have a contract with a doctor or provider, they are considered out-of-network.

Quartz has several different networks. **Yours is listed on your ID card**. You can search for providers in your network at [QuartzBenefits.com/findadoctor](https://QuartzBenefits.com/findadoctor). Simply select the network name that is on your ID card and a list of providers in your network will show in the search results.

**If a provider is not on the list, they are out-of-network and likely are not covered under your plan**. Some Quartz plans, however, do cover services with doctors not in your network. If you are not sure if a provider is in-network or out-of-network, simply call their office to check or call Quartz Customer Service for help.

## Establishing Primary Care

[QuartzBenefits.com/findadoctor](https://QuartzBenefits.com/findadoctor)

Quartz members are asked to **choose a primary care provider (PCP) or primary care clinic at enrollment**. If you don't, we will assign you to a primary care clinic near your home. You can make a new selection at any time. Family members do not need to have the same provider or clinic. Once you have picked a PCP who best meets your needs, you can update your record via MyChart.

### WHERE TO GET CARE

Choose the right care for the right situation. For all types of care, check to see what your plan covers, especially before being treated by someone other than your PCP. **You can see all your benefits in MyChart.**

## Prior Authorization

Most of the time, you can take care of your medical needs without checking with Quartz. In some situations, you might need our okay first before we cover the costs. This process is called prior authorization. You, your doctor, or nurse will fill out a General Prior Authorization Request Form and send it to Quartz for our review. We will let you and your provider know if the service is covered by your plan (approved) or not covered (denied). If the request is denied, we will tell you how you can appeal the decision. Learn more and download forms at [QuartzBenefits.com/priorauth](https://QuartzBenefits.com/priorauth) or [QuartzBenefits.com/medpriorauth](https://QuartzBenefits.com/medpriorauth).

## Referrals

As a Quartz member, you do not need to get a referral from your PCP to see other providers in your network.

### Note:

- ▶ Some specialists may only accept you as a patient if you have been referred by your PCP.
- ▶ You may need Quartz's okay ahead of time to make sure specialty care is covered by your plan.

<b>Inpatient Rehabilitation</b>	An inpatient rehabilitation facility is a free-standing rehabilitation hospital or a rehabilitation unit in an acute care hospital. They provide an intensive rehabilitation program and patients who are admitted must be able to tolerate three hours of intense rehabilitation services per day.
<b>Massage Therapy</b>	The manipulation of the muscles and other soft tissues of the body (as by stroking, kneading, or rubbing with one or both hands or an instrument) by a massage therapist for therapeutic purposes (as to relieve pain, promote healing, or improve physical functioning)
<b>Narcotic Treatment Services</b>	NRT is comprehensive treatment with synthetic opiates approved by the United States Food and Drug Administration (FDA) for opiate-addicted patients. Authorized narcotic replacement medications are methadone, buprenorphine, naltrexone, and levo-alpha-acetylmethadol (LAAM). They are available to patients receiving treatment in a licensed Narcotic Treatment Program (NTP).
<b>Nursing Home/ Skilled Nursing Facility (SNF)</b>	Nursing homes, also called skilled nursing facilities (SNFs), provide a wide range of health and personal care services. Their services focus on medical care more than most assisted living facilities. These services typically include nursing care, 24-hour supervision, three meals a day, and assistance with everyday activities.
<b>Open MRI</b>	Open MRIs are configured to provide improved patient comfort while taking images inside the body. They have magnets above and below the patient and wide open sides.
<b>Orthopedics</b>	A branch of medicine concerned with the correction or prevention of deformities, disorders, or injuries of the skeleton and associated structures (such as tendons and ligaments)
<b>Pharmacies</b>	A store where medicinal drugs are dispensed and sold.
<b>Physical Therapy</b>	The treatment of disease, injury, or deformity by physical methods such as massage, heat treatment, and exercise rather than by drugs or surgery.
<b>Podiatry</b>	The treatment of the feet and their ailments.
<b>Portable X-ray Supplier</b>	Portable x-ray suppliers provide diagnostic imaging services at patients' locations - most often residences including private homes and group living facilities, such as nursing homes - rather than in a traditional clinical setting, such as a doctor's office or hospital.
<b>Practice Location w/o eVIPS Facility Type</b>	Practice Location means the health care facility at which a physician spends the largest number of hours per week engaged in patient encounters among all such locations where such physician practices.
<b>Radiology</b>	The science dealing with X-rays and other high-energy radiation, especially the use of such radiation for the diagnosis and treatment of disease.
<b>Renal Dialysis Unit</b>	A ward or part thereof for dialyzing patients with advanced renal disease. Usually outpatients who may stay overnight; less commonly, inpatients who may be awaiting a kidney transplant.
<b>Sports Medicine Clinic</b>	Sports medicine is a branch of medicine that deals with physical fitness and the treatment and prevention of injuries related to sports and exercise.
<b>Urgent Care</b>	Urgent Care Medicine is the provision of immediate medical service offering outpatient care for the treatment of acute and chronic illness and injury.

# PRIMARY CARE PHYSICIANS

Nurse Practitioners (ANPs, APNs, APNPs, ARNPs, CNPs, CPNPs, DNP, FNP, NP, and WHNPs) and Physician Assistants (PAs) are licensed, highly qualified professional health care providers who work in partnership with medical doctors. While you may not select a PA as your primary care provider (PCP), they are available for annual exams, urgent/problem visits and follow-up for ongoing health care.

(\*) PCPs noted with this symbol are only accepting Quartz members who are existing patients.

(§) ANPs, APNs, APNPs, ARNPs, CNPs, CPNPs, DNP, FNP, NP, and WHNPs and NPs noted with this symbol may not be selected as a PCP.

(¥) This provider offers Telehealth Visits, which are remote scheduled appointments during clinic hours via telephone or video chat when clinically appropriate.
