

# Part B medications (outpatient)

## Coverage information

The information in this document relates to the coverage of outpatient medications covered under Medicare Part B (generally clinic-administered) and is based on existing National Coverage Determinations (NCDs), Local Coverage Determinations (LCDs), Local Coverage Articles (LCAs), and other relevant sources. Adherence to these policies is required when they exist. The table below lists medication names, applicable Medicare policies, and **Step Therapy Program** requirements. There are instances where this document may include a link to a Clinical Resource document as a reference for states which do not have an applicable NCD, LCD, or LCA. **This Clinical Resource document is for reference only and does not constitute prior authorization criteria.** Additionally, in the absence of Medicare coverage guidance (NCDs, LCDs, etc.), the Centers for Medicare & Medicaid Services (CMS) allows Medicare Advantage plans to implement their own criteria for coverage<sup>1</sup>. The Quartz Medicare Advantage Part B Prior Authorization criteria can be found at [QuartzBenefits.com/MAPartBPA](https://www.QuartzBenefits.com/MAPartBPA).

## Step therapy program

Some Part B medications may require step therapy before they will be covered<sup>2,3</sup>. In these cases, prior authorization will be required. It will require a history of trial and failure, contraindication, or intolerance to a preferred medication, among other criteria. Step therapy is required when noted in the Step therapy column of the table below.

Medication name	Medicare policies (NCD, LCDs/LCAs)	Clinical resource for states without LCDs/LCAs	Step therapy
<b>Aflibercept</b> <ul style="list-style-type: none"> <li>• <i>Eylea (aflibercept)*</i></li> </ul>	<a href="#">L33394 (A52451)</a>	None	No
<b>Bevacizumab</b> <ul style="list-style-type: none"> <li>• Avastin (bevacizumab)†</li> <li>• <i>Alymsys (bevacizumab-maly)*</i></li> <li>• <i>Mvasi (bevacizumab-awwb)*</i></li> <li>• <i>Zirabev (bevacizumab-bvzr)*</i></li> </ul>	<a href="#">L33394 (A52370)</a>	<a href="#">Clinical resource</a>	<a href="#">Yes</a>
<b>Botulinum toxins</b> <ul style="list-style-type: none"> <li>• <i>Botox (onabotulinumtoxinA)*</i></li> <li>• <i>Dysport (abobotulinumtoxinA)*</i></li> <li>• <i>Xeomin (incobotulinumtoxinA)*</i></li> </ul>	<a href="#">L33646 (A52848)</a>	<a href="#">Clinical resource</a>	No

Medication name	Medicare policies (NCD, LCDs/LCAs)	Clinical resource for states without LCDs/LCAs	Step therapy
<b>Brolucizumab</b> <ul style="list-style-type: none"> <li>• <i>Beovu (brolucizumab-dbil)</i>*</li> </ul>	<a href="#">L33394 (A52451)</a>	None	No
<b>Colony stimulating factors- Short Acting</b> <ul style="list-style-type: none"> <li>• Neupogen (filgrastim)</li> <li>• <i>Granix (tbo-filgrastim)</i>*</li> <li>• <i>Nivestym (filgrastim-aafi)</i>*</li> <li>• <i>Zarxio (filgrastim-sndz)</i>*</li> <li>• <i>Releuko (filgrastim-ayow)</i>*</li> </ul>	None	<a href="#">Clinical resource</a>	<a href="#">Yes</a>
