2025 Quartz Individual and Family Non-Standard 6-Tier Drug Formulary (Minnesota) Information

This Formulary serves members with an individual or family health plan purchased directly from Quartz or selected from the government's HealthCare.gov website or the state of Minnesota's MNsure website based in Minnesota.

This document is to be used as a tool to help you understand how specific drugs are covered under the Prescription Drug Formulary and is not a guarantee of coverage. The most recent version is available at www.QuartzBenefits.com, or can be requested in hard copy format by calling (800) 362-3310. An online formulary lookup tool is also available. For a detailed explanation of the pharmacy benefit, refer to the [Pharmacy Frequently Asked Questions](#) page available on the website or your Schedule of Benefits.

The formulary is the list of medications covered by Quartz through the prescription drug benefit. Some state and federal laws require Quartz to cover specific drugs for some benefits that are excluded for others. This formulary includes drugs covered for ALL fully insured Minnesota individual and family policies. Certain drugs on the formulary may not be covered by your specific plan.

The differences are based on what type of plan you have and / or:

- if your benefit plan meets the requirements of the Affordable Care Act

This means that even though a drug is listed on this formulary, it may not be covered by your specific benefit plan. Please see your Quartz Prescription Drug Benefit Rider or contact Member Services at (800) 496-7509 to verify your coverage.

For information about drug coverage on the medical benefit, please go to the [Medication Prior Authorization – clinically administered prior authorization list](#) page on the Quartz website.

Using the Formulary Document

To search the document press "CTRL-F" to open the "Find" box at the top of the document and enter the drug name. The name may be listed multiple times in the document. Press "Enter" to tab through each entry.

Each page of the formulary has three columns: **Drug Name**, **Drug Tier**, and **Notes**. Drugs are grouped by therapeutic category and class and listed alphabetically within the class. Brand names are listed in all capital letters. Generic drug names are included in lowercase font. Drugs that do not have Food and Drug Administration (FDA)-approved generic formulations are only listed by brand name. Biosimilars, newer formulations of biologic drugs (Fulphila, Hadlima, etc.), are also listed in capitalized text.

The **Drug Tier** column identifies which plan cost share applies to the drug and **Notes** contains indicators that may limit coverage of specific drugs or other coverage information.

Individual and Family Non-Standard 6-Tier Formulary Tier Key: how formulary tiers match up to Non-standard plan cost shares.*

Tier Abbreviation	Tier Description
T1 (\$0)	Zero-dollar cost share – covered at \$0
T2 (PG)	Preferred Generic drugs – covered at the tier 2 cost share
T3 (G)	Non-preferred Generic drugs – covered at the tier 3 cost share
T4 (PB)	Preferred Brand drugs – covered at the tier 4 cost share
T5 (NP)	Non-Preferred drugs – includes brand formulations and high-cost generics – covered at the tier 5 cost share
T6 (SP)	Specialty drugs – covered at the tier 6 cost share
T3 PV	Preventative Non-preferred Generic drugs – covered at \$0 cost share as listed in the formulary Notes (if not specified = \$0 for all populations)
T4 PV	Preventative Preferred Brand drugs – covered at \$0 cost share as listed in the formulary Notes (if not specified = \$0 for all populations)
T5 PV	Preventative Non-preferred drugs – covered at \$0 cost share as listed in the formulary Notes (if not specified = \$0 for all populations)

*Persons with deductible plans and plans with coinsurance cost shares pay based on the full cost of the drug regardless of formulary tier until plan deductible and/or maximum out-of-pocket values are met (except for drugs covered at \$0).

General Drug Coverage Concepts

90-Day Supplies: Drugs **MAY** qualify for a 3-month supply fill at the pharmacy. Three copays will be charged for the 3-month supply. All additional restrictions apply. Drugs included in the Specialty Pharmaceuticals Program are not eligible for 90-day supplies.

Exclusions: Some drug classes are not covered by your Quartz prescription benefit plan. Examples of these include hair loss drugs, sexual enhancement drugs, infertility drugs, most over-the-counter drugs, cosmetic treatments, and nutritional supplements / medical foods. Refer to your Prescription Drug Rider or the Certificate of Coverage to view your specific exclusions. Excluded drugs are generally not listed on the formulary.

Generic Substitution Policy: Quartz encourages the use of generic medications and biosimilars when they are available to help lower health care costs. When a generic or biosimilar is available for a drug, the brand product or reference biologic is Nonformulary and not covered. Requests for coverage of a brand-name product (including Reference Biologics) follow the Exceptions Process and coverage determinations are based on Medical Necessity. If your healthcare practitioner feels it is medically necessary to receive the brand-name product, a formulary exception request must be submitted for review.

Oral Oncology Drug cost share: For drugs taken at home to treat cancer, the state of Minnesota has laws that affect cost share. The maximum cost share that can be applied to these medications is \$0 per 30-day fill after any benefit deductible has been met. This maximum cost share amount applies regardless of what tier the drug is listed at on the formulary document.

Preventative Medication Coverage: Some laws, such as the Affordable Care Act (ACA), require that certain drugs need to be covered at a \$0 cost share for members. Quartz covers these drugs within the guidelines recommended by the United States Preventative Services Task Force (USPSTF). Restrictions, including age limits, quantity limits, prior authorization, and days' supply may apply to some drugs. In some cases, the pharmacy must indicate that the drug is being used for a specific diagnosis when filling the prescription for the \$0 cost share to apply. A list of covered preventative drugs and the qualifications for coverage is included at the end of this formulary. Some drugs may have coverage indicators in the **Notes** column that will describe what uses are included.

Formulary Notes – Coverage Indicators

Specific requirements for coverage of some drugs are noted in the formulary listing in the Notes column. An explanation of each type of requirement or parameter is listed below.

Quantity Limits (QL): Drugs with a QL are limited to a specific quantity (number of pills, grams, etc.) when filled at the pharmacy. For medications with a quantity limit, if a member requires a higher quantity per month, prior authorization is required.

Restricted Medications (PA): Drugs with a PA are restricted and require an approved prior authorization for coverage. Quartz requires the submission and approval of a Medication Coverage Request form before coverage is granted for restricted drugs. The Medication *Prior Authorization* request form can be obtained through Member Services or via the Quartz website at www.QuartzBenefits.com. Please note: *The Medication Prior Authorization* request form can also be used to submit an exceptions request for nonformulary (or not covered) drugs.

Requests can be submitted via fax to (844) 403-1029, by phone, or can be mailed to the address on the form. Your doctor may also be able to submit an electronic request (ePA) directly from the electronic health record (EHR) they use. The information will be reviewed, and both the requesting physician and the member will be notified regarding the coverage decision. If you would like to discuss the specifics of a medication request decision with a pharmacist, or have general questions about the prior authorization criteria, please call Member Services at (800) 496-7509.

Specialty Pharmaceuticals Program (SP-QTZ or SP-ORX): Specialty pharmaceuticals encompass a growing number of drugs that are usually high-cost, may involve complex treatment regimens, have special handling, storage, or delivery needs, may require injectable or infusible administration, are for rare diseases or therapeutic categories such as oncology, autoimmune, or inflammatory diseases with long-term, severe symptoms, and may have limited product availability.

Specialty drugs listed with an SP-QTZ or SP-ORX in the formulary **Notes** column are required to be obtained from a specific specialty pharmacy participating in the Quartz Specialty Pharmaceuticals network for coverage. The UW Health specialty pharmacies, Gundersen Health System pharmacies, and Aurora specialty pharmacy are currently participating in the Quartz Specialty Pharmaceuticals network for drugs marked as SP-QTZ. For information about these pharmacies, see the [Specialty Pharmaceuticals Program](#) section on the Quartz website. Drugs marked with SP-ORX must be filled at the Optum specialty pharmacy. For additional information on Optum's specialty pharmacy visit the [Optum website](#).

Most of the drugs included in Quartz Specialty Pharmacy network have pharmacist-run management programs to maximize patient knowledge and outcomes from these medications. This may include additional follow-up from the pharmacist or partial dispensing protocols.

The Quartz Specialty Pharmacy program DOES NOT apply to medications administered in your physician's office, a hospital, or other health care facility. Coverage for medications administered in a health care facility falls under your medical benefit and may be subject to other requirements.

Step Therapy (ST): Drugs with a ST require step therapy, where a person must first try a prerequisite medication(s) before receiving coverage for the listed ST products. If step therapy criteria are not met through previous drug claim fills for the first line agents, then ST drugs require prior authorization. Members without a claims history or who have not filled the step drugs for an extended time will need to submit a Medication Prior Authorization request form for consideration of coverage.

Zero Dollar Cost Share Before Deductible (HDHP): Drugs with a HDHP listing are covered at a \$0 cost share before a plan deductible has been met for some Internal Revenue Service (IRS) qualified high-deductible health plans (HDHP) with a health savings account (HSA). Please refer to the plan Summary of Benefits documents or contact Member Services at (800) 496-7509 to check to see if your plan has this benefit.

Individual/Family and Small Group Preventive Care Medications

Under the healthcare reform law (Affordable Care Act), plans must cover certain Preventive care drugs at \$0 cost share – without charging a copay, coinsurance, or deductible. These drugs can include:

- United States Preventive Services Task Force (USPSTF) A and B recommended drugs
- Food and Drug Administration (FDA)-approved prescription and over the counter (OTC) birth control (contraceptives)
- Advisory Committee on Immunization Practices (ACIP) recommend vaccines

In support of this law, Quartz covers this list Preventive care drugs of \$0 cost share that are listed on the formulary (**most with a PV for preventive**) when they are:

- Prescribed by a health care professional (unless not required by your specific state)
- Age or condition specific as recommended by USPSTF, ACIP, etc.
- Filled at a network pharmacy

To find a network pharmacy, please use the [Find A Pharmacy](#) tool on the Quartz website at www.QuartzBenefits.com. If you get these drugs at an out-of-network pharmacy, they will not be covered you may have to pay the full cost for them.

Please note:

- Based on your health plan and state, utilization management (i.e., prior authorization, step therapy, and quantity limits) may apply to the drugs listed below
- Certain dosage forms or strengths of a drug may not be \$0 even though the drug name appears on this list
- If you do not meet the recommendations for Preventive use, the drug claim may cost your benefit cost share or may not be covered at all.
- Generic or brand status of drugs is subject to change due to updates in the market
- This list is subject to change without prior notice

Frequently Asked Questions – Preventive Care Drug Coverage

What happens if a generic drug becomes available?

Prescription brand drugs may be replaced by newly launched FDA-approved generic equivalents.

What if my doctor says I need a birth control product that is not on this list?

This list includes at least one form of birth control from each FDA-approved category. If your doctor prescribes birth control that is not on this list that is medically necessary, submit a [Health Care Reform copay waiver](#) and it may be covered at \$0 cost share. Some forms of birth control, such as intrauterine devices (IUDs) or implants may be available through your medical benefits.

Is my plan required to cover contraceptives?

If your employer elects a religious or moral exemption, contraceptives may not be covered at \$0 cost share for your plan. Please check with your Human Resources department to determine if your employer has elected not to cover contraceptives at \$0 cost share.

What if my doctor prescribes a bowel preparation for my Preventive colonoscopy that is not on this list?

You can ask your doctor for a prescription for one of the drugs on this list. If it is medically necessary to use a different bowel preparation you may work with your doctor to obtain a [Health Care Reform copay waiver](#) for review and it may be covered at \$0 cost share. Note, bowel preparations that are NOT Preventive are not required to be covered at \$0 cost share.

What if my doctor says I need a HIV PrEP drug that is not on this list?

If your doctor prescribes a HIV Preventive drug that is not on our list it may be covered at \$0 cost share if determined to be medically necessary. Work with your doctor to submit a [Health Care Reform copay waiver](#) for review. Some forms of HIV PrEP may be covered under your medical benefits.

Will this drug list change?

Drug lists can and do change, so it is always a good idea to check. Products may be removed from the market, the laws governing coverage may change, or recommendations from groups such as ACIP or USTPSTF may change. Please call Optum Member Services at (800) 496-7509 (TTY: 711) if you have questions about coverage.
