

2025 Individual and Family Non-Standard 6-Tier Drug Formulary (Wisconsin)

QuartzBenefits.com

This formulary applies to individual and family plans sold in the state of Wisconsin. People with Quartz drug coverage based in another state should see the non-Wisconsin formulary documents found at <https://quartzbenefits.com/members/pharmacy-program/covered-drugs/>

This formulary does not apply to Quartz State and Local Government members or Quartz BadgerCare Plus members. State and Local Government members should call **Navitus** at **(866) 333-2757** or visit www.navitus.com for information about your prescription drug benefits.

BadgerCare Plus and/or Medicaid SSI members must call the **Wisconsin Department of Health and Family Services** at **(800) 362-3002** or visit www.forwardhealth.wi.gov for information about your prescription drug benefits.

January 1, 2025

2025 Quartz Individual and Family Non-Standard 6-Tier Drug Formulary (Wisconsin) Information

This Formulary serves members with an individual or family health plan purchased directly from Quartz or selected from the government's HealthCare.gov website based in Wisconsin.

This document does not apply to State of Wisconsin employees whose drug benefit is administered by Navitus or BadgerCare and/or Medicaid SSI members whose drug benefit is administered by ForwardHealth.

This document is to be used as a tool to help you understand how specific drugs are covered under the Prescription Drug Formulary and is not a guarantee of coverage. The most recent version is available at www.QuartzBenefits.com, or can be requested in hard copy format by calling (800) 362-3310. An online formulary lookup tool is also available. For a detailed explanation of the pharmacy benefit, refer to the [Pharmacy Frequently Asked Questions](#) page available on the website or your Schedule of Benefits.

The formulary is the list of medications covered by Quartz through the prescription drug benefit. Some state and federal laws require Quartz to cover specific drugs for some benefits that are excluded for others. This formulary includes drugs covered for ALL fully insured Wisconsin individual and family policies. Certain drugs on the formulary may not be covered by your specific plan.

The differences are based on what type of plan you have and / or:

- if your benefit plan meets the requirements of the Affordable Care Act

This means that even though a drug is listed on this formulary, it may not be covered by your specific benefit plan. Please see your Quartz Prescription Drug Benefit Rider or contact Member Services at (800) 496-7509 to verify your coverage.

For information about drug coverage on the medical benefit, please go to the [Medication Prior Authorization – clinically administered prior authorization list](#) page on the Quartz website.

Using the Formulary Document

To search the document press "CTRL-F" to open the "Find" box at the top of the document and enter the drug name. The name may be listed multiple times in the document. Press "Enter" to tab through each entry.

Each page of the formulary has three columns: **Drug Name**, **Drug Tier**, and **Notes**. Drugs are grouped by therapeutic category and class and listed alphabetically within the class. Brand names are listed in all capital letters. Generic drug names are included in lowercase font. Drugs that do not have Food and Drug

Administration (FDA)-approved generic formulations are only listed by brand name. Biosimilars, newer formulations of biologic drugs (Fulphila, Hadlima, etc.), are also listed in capitalized text.

The **Drug Tier** column identifies which plan cost share applies to the drug and **Notes** contains indicators that may limit coverage of specific drugs or other coverage information.

Individual and Family Non-Standard 6-Tier Formulary Tier Key: how formulary tiers match up to Non-standard plan cost shares.*

Tier Abbreviation	Tier Description
T1 (\$0)	Zero-dollar cost share – covered at \$0
T2 (PG)	Preferred Generic drugs – covered at the tier 2 cost share
T3 (G)	Non-preferred Generic drugs – covered at the tier 3 cost share
T4 (PB)	Preferred Brand drugs – covered at the tier 4 cost share
T5 (NP)	Non-Preferred drugs – includes brand formulations and high-cost generics – covered at the tier 5 cost share
T6 (SP)	Specialty drugs – covered at the tier 6 cost share
T3 PV	Preventative Non-preferred Generic drugs – covered at \$0 cost share as listed in the formulary Notes (if not specified = \$0 for all populations)
T4 PV	Preventative Preferred Brand drugs – covered at \$0 cost share as listed in the formulary Notes (if not specified = \$0 for all populations)
T5 PV	Preventative Non-preferred drugs – covered at \$0 cost share as listed in the formulary Notes (if not specified = \$0 for all populations)

***Persons with deductible plans and plans with coinsurance cost shares pay based on the full cost of the drug regardless of formulary tier until plan deductible and/or maximum out-of-pocket values are met (except for drugs covered at \$0).**

General Drug Coverage Concepts

90-Day Supplies: Drugs **MAY** qualify for a 3-month supply fill at the pharmacy. Three copays will be charged for the 3-month supply. All additional restrictions apply. Drugs included in the Specialty Pharmaceuticals Program are not eligible for 90-day supplies.

Exclusions: Some drug classes are not covered by your Quartz prescription benefit plan. Examples of these include hair loss drugs, sexual enhancement drugs, infertility drugs, most over-the-counter drugs, cosmetic treatments, and nutritional supplements / medical foods. Refer to your Prescription Drug Rider or the Certificate of Coverage to view your specific exclusions. Excluded drugs are generally not listed on the formulary.

Generic Substitution Policy: Quartz encourages the use of generic medications and biosimilars when they are available to help lower health care costs. When a generic or biosimilar is available for a drug, the brand product or reference biologic is Nonformulary and not covered. Requests for coverage of a brand-name product (including Reference Biologics) follow the Exceptions Process and coverage determinations are

based on Medical Necessity. If your healthcare practitioner feels it is medically necessary to receive the brand-name product, a formulary exception request must be submitted for review.

Oral Oncology Drug cost share: For drugs taken at home to treat cancer, the state of Wisconsin has stated that the maximum cost share that can be applied to these medications is \$100 per 30-day fill after any benefit deductible has been met. The cost share may be less than \$100 depending on your benefit structure. This maximum cost share amount applies regardless of what tier the drug is listed at on the formulary document.

Preventative Medication Coverage: Some laws, such as the Affordable Care Act (ACA), require that certain drugs need to be covered at a \$0 cost share for members. Quartz covers these drugs within the guidelines recommended by the United States Preventative Services Task Force (USPSTF). Restrictions, including age limits, quantity limits, prior authorization, and days' supply may apply to some drugs. In some cases, the pharmacy must indicate that the drug is being used for a specific diagnosis when filling the prescription for the \$0 cost share to apply. Coverage indicators in the **Notes** column will describe what uses are included.

Formulary Notes – Coverage Indicators

Specific requirements for coverage of some drugs are noted in the formulary listing in the Notes column. An explanation of each type of requirement or parameter is listed below.

Quantity Limits (QL): Drugs with a QL are limited to a specific quantity (number of pills, grams, etc.) when filled at the pharmacy. For medications with a quantity limit, if a member requires a higher quantity per month, prior authorization is required.

Restricted Medications (PA): Drugs with a PA are restricted and require an approved prior authorization for coverage. Quartz requires the submission and approval of a Medication Coverage Request form before coverage is granted for restricted drugs. The Medication *Prior Authorization* request form can be obtained through Member Services or via the Quartz website at www.QuartzBenefits.com. Please note: *The Medication Prior Authorization* request form can also be used to submit an exceptions request for nonformulary (or not covered) drugs.

Requests can be submitted via fax to (844) 403-1029, by phone, or can be mailed to the address on the form. Your doctor may also be able to submit an electronic request (ePA) directly from the electronic health record (EHR) they use. The information will be reviewed, and both the requesting physician and the member will be notified regarding the coverage decision. If you would like to discuss the specifics of a medication request decision with a pharmacist, or have general questions about the prior authorization criteria, please call Member Services at (800) 496-7509.

Specialty Pharmaceuticals Program (SP-QTZ or SP-ORX): Specialty pharmaceuticals encompass a growing number of drugs that are usually high-cost, may involve complex treatment regimens, have special handling, storage, or delivery needs, may require injectable or infusible administration, are for rare

diseases or therapeutic categories such as oncology, autoimmune, or inflammatory diseases with long-term, severe symptoms, and may have limited product availability.

Specialty drugs listed with an SP-QTZ or SP-ORX in the formulary **Notes** column are required to be obtained from a specific specialty pharmacy participating in the Quartz Specialty Pharmaceuticals network for coverage. The UW Health specialty pharmacies, Gundersen Health System pharmacies, and Aurora specialty pharmacy are currently participating in the Quartz Specialty Pharmaceuticals network for drugs marked as SP-QTZ. For information about these pharmacies, see the [Specialty Pharmaceuticals Program](#) section on the Quartz website. Drugs marked with SP-ORX must be filled at the Optum specialty pharmacy. For additional information on Optum's specialty pharmacy visit the [Optum website](#).

Most of the drugs included in Quartz Specialty Pharmacy network have pharmacist-run management programs to maximize patient knowledge and outcomes from these medications. This may include additional follow-up from the pharmacist or partial dispensing protocols.

The Quartz Specialty Pharmacy program DOES NOT apply to medications administered in your physician's office, a hospital, or other health care facility. Coverage for medications administered in a health care facility falls under your medical benefit and may be subject to other requirements.

Step Therapy (ST): Drugs with a ST require step therapy, where a person must first try a prerequisite medication(s) before receiving coverage for the listed ST products. If step therapy criteria are not met through previous drug claim fills for the first line agents, then ST drugs require prior authorization. Members without a claims history or who have not filled the step drugs for an extended time will need to submit a Medication Prior Authorization request form for consideration of coverage.

Value Tier (Value): Some drugs have been shown to improve the overall health of people with health problems like high blood pressure, high blood sugars (diabetes mellitus), and breathing difficulties (asthma) when taken daily. For members whose plan includes the Value Tier/RX Outcomes benefit, the preferred brand drugs noted as Value in the **Notes** section will process with the preferred generic (T2(PG)) copay. This only applies to plans sold before 2025 with the value tier benefit. Please refer to the plan Summary of Benefits documents or contact Member Services at (800) 496-7509 to check to see if your plan has this benefit.

Zero Dollar Cost Share Before Deductible (HDHP): Drugs with a HDHP listing are covered at a \$0 cost share before a plan deductible has been met for some Internal Revenue Service (IRS) qualified high-deductible health plans (HDHP) with a health savings account (HSA). Please refer to the plan Summary of Benefits documents or contact Member Services at (800) 496-7509 to check to see if your plan has this benefit.

Where to find additional information when you have questions:

Topic	Where Available
To check how a drug is covered by Quartz or print a copy of the drug formulary	QuartzBenefits.com
For criteria for coverage of a drug	Optum Member Services: (800) 496-7509 or QuartzBenefits.com
To speak with a pharmacist regarding a prior authorization denial	Optum Member Services: (800) 496-7509
To appeal a prior authorization denial	Quartz Customer Success: (800) 362-3310
To enroll in the Quartz Specialty Pharmaceuticals program	UW Health Pharmacy: (866) 894-3784 UW Health Northern Illinois: (888) 861-0854 Gundersen Health System Pharmacy: (877) 208-1096 Aurora Specialty Pharmacy: (844) 820-5600
