2026 Quartz Individual and Family Non-Standard ACA Drug Formulary – Minnesota and Wisconsin Information

This Formulary serves members with an Individual or Family non-standard health plan purchased directly from Quartz, selected from the state of Minnesota's MnSure.org website, or selected from the Federal government's HealthCare.gov website based in the states of Minnesota or Wisconsin.

This document should be used as a tool to help you understand how specific drugs are covered under the Quartz Prescription Drug benefit and is not a guarantee of coverage. The inclusion of a drug on the Quartz formulary (covered drug list) does not guarantee that your provider will prescribe it for your health condition.

The formulary is subject to change at any time during the benefit period. Changes may include updates to covered drugs or covered dose forms of a drug, tier placement of a drug on the formulary, and changes in drug restrictions (requirement for prior authorization, quantity limits, etc.). The health plan posts an updated formulary document quarterly. The most recent version is available at www.QuartzBenefits.com/formulary, or can be requested in hard copy format by calling (800) 362-3310. For a listing of what has changed visit the Formulary Updates page at **QuartzBenefits.com**.

For a detailed explanation of the pharmacy benefit, refer to the Pharmacy Frequently Asked Questions page available on the website, your Schedule of Benefits, or call Member Services at (800) 496-7509.

The formulary is the list of medications covered by Quartz through the prescription drug benefit when filled at a network pharmacy. To find a network pharmacy including retail and mail order pharmacies, please use the **Find a Pharmacy** tool at **QuartzBenefits.com** then take, or have your prescribing provider submit, your prescription to them.

Some state and federal laws require Quartz to cover specific drugs for some benefits that are excluded for others. This formulary includes drugs covered for ALL fully insured Minnesota and Wisconsin non-standard Individual and Family commercial policies. Certain drugs on the formulary may not be covered by your specific plan.

Differences are based on what type of plan you have and / or:

- what state your plan is based in
- if your benefit plan meets the requirements of the Affordable Care Act

This means that even though a drug is listed on this formulary, it may not be covered by your specific benefit plan. Please see your Quartz Prescription Drug Benefit Rider or Certificate of Coverage or contact Member Services at (800) 496-7509 to verify your coverage.

Your Quartz plan also covers drugs administered by a health care provider in a clinic, infusion center, by home health services, or other medical sites of care, referred to as "medical benefit" coverage. Medical benefit drugs are not covered under your Quartz prescription drug benefits and generally cannot be filled at the pharmacy. For information about drug coverage on the medical benefit including a list of restricted medical benefit drugs and the prior authorization criteria for coverage, please go to the Medication Prior Authorization – clinically administered prior authorization list page on **QuartzBenefits.com**.

Using the Formulary Document

To search the formulary document press "CRTL-F" on your keyboard to open the "Find" box at the top of the document and enter the brand or generic drug name. The name may be listed multiple times in the document. Press "Enter" to tab through each entry. You may also search for a drug by its therapeutic category (e.g. Diabetes or Cardiovascular).

Each page of the formulary has three columns: **Drug Name, Drug Tier**, and **Notes**. Drugs are grouped by therapeutic category and class and listed alphabetically within the class. Brand names are listed in all capital letters. Generic drug names are included in lowercase font. The generic form of a brand name drug will also be listed separately in the alphabetized list if it is included in the formulary. Drugs that do not have Food and Drug Administration (FDA)-approved generic formulations are only listed by brand name. Biosimilars, alternative formulations of biologic drugs (e.g. Fulphila, Hadlima, etc.), are also listed in capitalized text. If the plan only covers the generic equivalent of a drug, the brand name may not be listed so you should also try searching by the drug's generic name to see if it is included in the formulary.

The **Drug Tier** column identifies which plan cost share applies to the drug. The table below includes a description of each formulary tier and how the tiers align with drug plan benefit cost shares.

Individual and Family Non-Standard ACA Formulary Tier Key: how formulary tiers match up to Non-standard plan cost shares.*

Tier Abbreviation	Tier Description
$0	Zero-dollar cost share – covered at $0
LCG	Low Cost Generic drugs – covered at the low cost generic cost share
T1 (G)	Generic drugs – covered at the tier 1 cost share
T2 (PB)	Preferred Brand drugs – covered at the tier 2 cost share
T3 (NP)	Non-Preferred drugs – includes brand formulations and high-cost generics – covered at the tier 3 cost share
T4 (SP)	Specialty drugs – covered at the tier 4 cost share
LCG PV	Preventive Low Cost Generic drugs – covered at $0 cost share as listed in the formulary Notes or Preventive Coverage listing
T1 PV	Preventive Generic drugs – covered at $0 cost share as listed in the formulary Notes or Preventive Coverage listing
T2 PV	Preventive Preferred Brand drugs - covered at $0 cost share as listed in the formulary Notes or Preventive Coverage listing

T3 PV	Preventive Non-preferred drugs - covered at $0 cost share as listed in the formulary Notes or Preventive Coverage listing

***Persons with deductible plans and plans with coinsurance cost shares pay based on the full cost of the drug regardless of formulary tier until plan deductible and/or maximum out-of-pocket values are met (except for drugs covered at $0).**

General Drug Coverage Concepts

90-Day Supplies: Drugs **MAY** qualify for a 3-month supply fill at the pharmacy. Three copays will be charged for the 3-month supply. All additional restrictions apply. Drugs included in the Specialty Pharmaceuticals Program are not eligible for 90-day supplies.

Exclusions: Some drug classes are not covered by your Quartz prescription benefit plan. Examples of these include hair loss drugs, sexual enhancement drugs, infertility drugs, most over-the-counter drugs, cosmetic treatments, and nutritional supplements / medical foods. Refer to your Prescription Drug Rider or the Certificate of Coverage to view your specific exclusions. Excluded drugs are generally not listed on the formulary.

Generic Substitution Policy: Quartz encourages the use of generic medications and biosimilars when they are available to help lower health care costs. When a generic or biosimilar is available for a drug, the brand product or reference biologic may be non-formulary and not covered. Requests for coverage of a non-formulary brand-name product (including Reference Biologics) follow the Exceptions Process and coverage determinations are based on Medical Necessity. If your healthcare practitioner feels it is medically necessary to receive the brand-name product, a formulary exception request must be submitted for review.

Non-formulary Drug Exception Requests

Exception requests can be submitted using the Medication Coverage Request form on the Quartz website, via fax to (844) 403-1029, by phone, or can be mailed to the address on the form. Your doctor may also be able to submit an electronic request (ePA) directly from the electronic health record (EHR) they use. The information will be reviewed, and both the requesting prescriber and the member or member's designee will be notified of the coverage decision. If a request is denied, the notifications will include documentation on how to appeal the denial with the health plan. If you would like to discuss the specifics of an exception request decision with a pharmacist, or have general questions about the coverage decision, please call Member Services at (800) 496-7509.

Oral Oncology Drug cost share: For drugs taken at home to treat cancer, the state of Wisconsin has regulations that set the maximum cost share that can be applied to these medications at $100 per 30-day fill after any benefit deductible has been met. The cost share may be less than $100 depending on your benefit structure. The state of Minnesota has a law that affects oncology drug cost share as well. The maximum cost share that will be applied to these medications is $0 per 30-day fill after any benefit deductible has been met. This maximum cost share amount applies regardless of what tier the drug is listed on the formulary document

Preventive Medication Coverage: Some laws, such as the Affordable Care Act (ACA), require that certain drugs need to be covered at a $0 cost share for members. Quartz covers these drugs within the guidelines recommended by the United States Preventative Services Task Force (USPSTF). Restrictions, including age limits, quantity limits, prior authorization, and days' supply may apply to some drugs. In some cases, the pharmacy must indicate that the drug is being used for a specific diagnosis when filling the prescription for the $0 cost share to apply. A list of covered preventive drugs and the qualification for coverage is included in this formulary. Some drugs may have coverage indicators in the **Notes** column that will describe what uses are included.

Formulary Notes - Coverage Indicators

The **Notes** column contains indicators that may limit coverage of specific drugs or provide other coverage information. An explanation of each type of requirement or parameter is listed below, including its corresponding indicator in parentheses.

Quantity Limits (QL): Drugs with a QL are limited to a specific quantity (number of pills, grams, etc.) when filled at the pharmacy. For medications with a quantity limit, if a member requires a higher quantity prior authorization is required.

Restricted Medications (PA): Drugs with a PA are restricted and require an approved prior authorization for coverage. Quartz requires the submission and approval of a Medication Coverage Request form before coverage is granted for restricted drugs. The Medication *Prior Authorization* request form can be obtained through Member Services or via the Quartz website at www.QuartzBenefits.com. Please note: *The Medication Prior Authorization* request form can also be used to submit an exceptions request for nonformulary (or not covered) drugs.

Requests can be submitted via fax to (844) 403-1029, by phone, or can be mailed to the address on the form. Your doctor may also be able to submit an electronic request (ePA) directly from the electronic health record (EHR) they use. The information will be reviewed, and both the requesting prescriber and the member will be notified regarding the coverage decision. If a request is denied, the notifications will include documentation on how to appeal the denial with the health plan. If you would like to discuss the specifics of a medication request decision with a pharmacist, or have general questions about the prior authorization criteria, please call Member Services at (800) 496-7509.

Specialty Pharmaceuticals Program (SP-QTZ): Specialty pharmaceuticals encompass a growing number of drugs that are usually high-cost, may involve complex treatment regimens, have special handling, storage, or delivery needs, may require injectable or infusible administration, are for rare diseases or therapeutic categories such as oncology, autoimmune, or inflammatory diseases with long-term, severe symptoms, and may have limited product availability.

Specialty drugs listed with an SP-QTZ in the formulary **Notes** column are required to be obtained from a specific specialty pharmacy participating in the Quartz Specialty Pharmaceuticals network for coverage.

The UW Health specialty pharmacies, Emplify Health pharmacies, and Advocate Health specialty pharmacy are currently participating in the Quartz Specialty Pharmaceuticals network for drugs marked as SP-QTZ. For information about these pharmacies, see the Specialty Pharmaceuticals Program section on the Quartz website.

Most of the drugs included in Quartz Specialty Pharmacy network have pharmacist-run management programs to maximize patient knowledge and outcomes from these medications. This may include additional follow-up from the pharmacist or partial dispensing protocols.

The Quartz Specialty Pharmacy program DOES NOT apply to medications administered in your physician's office, a hospital, or other health care facility. Coverage for medications administered in a health care facility falls under your medical benefit and may be subject to other requirements.

Step Therapy (ST): Drugs with a ST require step therapy, where a person must first try a prerequisite medication(s) before receiving coverage for the listed ST products. If step therapy criteria are not met through previous drug claim fills for the first line agents, then ST drugs require prior authorization. Members without a claims history or who have not filled the step drugs for an extended time will need to submit a Medication Prior Authorization request form for consideration of a step therapy exception.

Zero Dollar Cost Share Before Deductible ($0 HDHP): Drugs with a $0 HDHP listing are covered at a $0 cost share before a plan deductible has been met for some Internal Revenue Service (IRS) qualified high-deductible health plans (HDHP) with a health savings account (HSA). Please refer to the plan Summary of Benefits and Coverage (SBC) document or contact Member Services at (800) 496-7509 to check to see if your plan has this benefit.

Preventive care medications for Individual/Family, Small Group, and Level-Funded Formularies

To help keep you healthy, Quartz covers certain preventive care drugs at $0 cost-share – without charging a copay, coinsurance, or deductible. We will even cover the preventive care drugs on this list at $0 cost-share even if they are not listed on the drug formulary (covered drug list) or are listed on a cost-sharing tier on the formulary. For these medications to be covered, they must be:

- Prescribed by a health care professional (unless not required by the state in which your plan was purchased)
- Age or condition-specific as recommended by the U.S. Preventive Services Task Force (USPSTF), Advisory Committee on Immunization Practices (ACIP), etc.
- Filled at a network pharmacy

To find a network pharmacy, use our **Find A Pharmacy** tool at **QuartzBenefits.com/FindAPharmacy**.

Please keep in mind:

- Based on your health plan and state, utilization management (i.e., prior authorization, step therapy, and quantity limits) may apply to the drugs listed below
- If you get these drugs at an out-of-network pharmacy, they will not be covered, and you may have to pay the full cost for them
- Certain dosage forms or strengths of a drug may not be $0 cost-share even though the drug name appears on this list
- If you do not meet the recommendations for preventive use of the drug, you may have to pay the benefit cost-share or it may not be covered at all
- This list, including generic or brand status of drugs, is subject to change without prior notice

Frequently asked questions – Preventive care drug coverage

What happens if a generic drug becomes available?

Newly launched FDA-approved generic equivalents may replace prescription brand drugs.

What if my provider says I need a birth control product that is not on this list?

This list includes at least one form of birth control from each FDA-approved category. If your provider prescribes birth control that is not on this list and is medically necessary, submit a Health Care Reform copay waiver or Medication prior authorization form, and it may be covered at $0 cost-share. Some forms of birth control, such as intrauterine devices (IUDs) or implants, may be available through your medical benefits.

Is my plan required to cover contraceptives?

If your employer elects a religious or moral exemption, contraceptives may not be covered at $0 cost-share for your plan. Please check with your Human Resources department to determine if your employer has elected not to cover contraceptives at $0 cost-share.

What if my provider prescribes a bowel preparation for my preventive colonoscopy that is not on this list?

You can ask your provider for a prescription for one of the drugs on this list. If it is medically necessary to use a different bowel preparation, you may work with your provider to submit a Health Care Reform copay waiver or Medication prior authorization form for review, and it may be covered at $0 cost-share. Note, bowel preparations that are NOT preventive are not required to be covered at $0 cost-share.

What if my provider says I need a HIV PrEP drug that is not on this list?

If your provider prescribes a HIV preventive drug that is not on our list, it may be covered at a $0 cost-share if determined to be medically necessary. Work with your provider to submit a Health Care Reform copay waiver or Medication prior authorization form for review. We may cover some forms of HIV PrEP under your medical benefits.

Will this drug list change?

Drug lists can and do change, so checking is always a good idea. Products may be removed from the market, the laws governing coverage may change, or recommendations from groups such as ACIP or USPSTF may change. Please call Member Services at **(800) 496-7509 (TTY: 711)** if you have questions about coverage.
