

Quartz

2025 Provider Directory

For Quartz Medicare Select Network

Care at your fingertips

Your Quartz plan gives you access to an extensive provider network of trusted doctors and facilities. Use the Quartz Provider Directory to easily find an in-network provider along with general information about how to receive care.

The information in this directory applies to most Quartz members. Some health benefits vary by plan. Please read your plan documents to confirm your coverage details.

Note:

- Directory information may change as providers join or leave the network, move, or retire.
- Before getting care, be sure to check that the provider you want to see is in your network and taking new patients.

For the most up-to-date list of care providers in your Quartz network, please visit:

[QuartzBenefits.com/findadoctor](https://www.QuartzBenefits.com/findadoctor).

Call Quartz Customer Success if you'd like a free, printed copy of our provider directory mailed to you.

Questions?

Call us if you need help finding a provider who meets your needs, or if you have any questions. We're here to help.

Quartz Customer Success: (800) 362-3310 (TTY: 711)

Monday - Thursday from 7 a.m. - 6 p.m. and on Fridays from 7 a.m. - 5 p.m.

Your plan details: [QuartzBenefits.com](https://www.QuartzBenefits.com)

Message us in MyChart: [QuartzMyChart.com](https://www.QuartzMyChart.com)

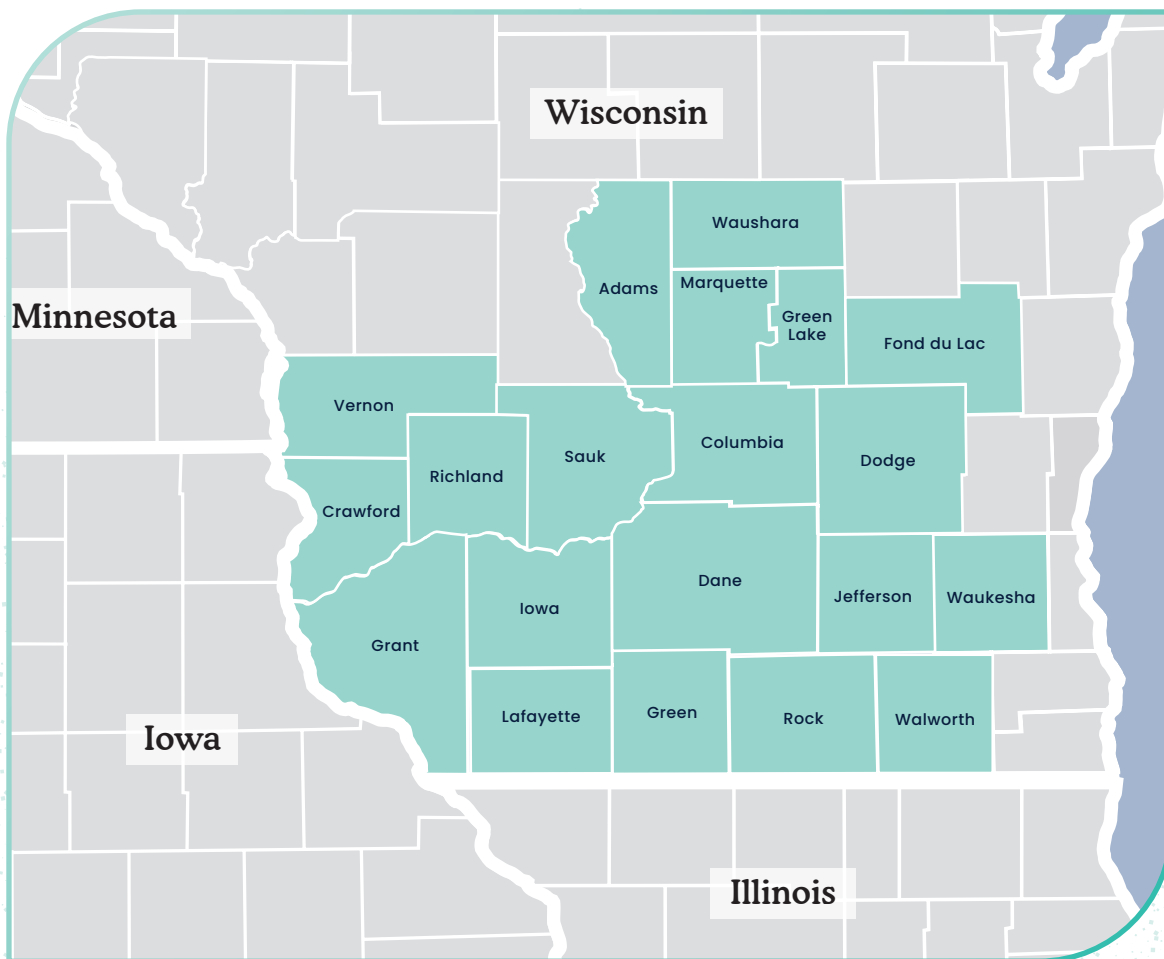

Quartz Medicare Select Network service area

Your provider network

Your plan includes access to all **in-network** health care providers. A network is a group of doctors and other medical professionals who have an agreement with Quartz to treat our members. They'll bill us for your care. If we don't have a contract with a doctor or provider, they're considered **out-of-network**.

Quartz has several different networks. Your network is listed on your ID card – you can search for providers in your network at QuartzBenefits.com/findadoctor. Simply select the network name listed on your ID card and a list of in-network providers will appear in the search results.

If you don't see a provider on the list, they are out-of-network and not likely to be covered under your plan. Some Quartz plans, however, will cover services from doctors outside of your network. If you're unsure whether a provider is in-network or out-of-network, please call their office to check or contact Quartz Customer Success for help.

Establishing Primary Care

QuartzBenefits.com/findadoctor

We ask you to choose a Primary Care Provider (PCP) or Primary Care Clinic (PCC) upon enrollment. If you don't, we'll assign you a Primary Care Clinic near your home. You can make a new selection at any time, and family members don't need to have the same provider or clinic. Once you've chosen a PCP who best meets your needs, you can update your record via MyChart.

Where to get care

Choose the right care at the right place based on your situation. For all types of care, check to see what your plan covers, especially before being treated by someone other than your PCP. You can see all your benefits in MyChart (QuartzMyChart.com).

| | Virtual visit | Telehealth | Primary care | Urgent care | Emergency care |
|---------------|--|--|---|---|---|
| Description | An on-demand appointment with a health care provider via your smartphone, tablet, or computer | A scheduled appointment with a provider during clinic hours, via video chat or phone call | Regular, non-emergency care. Face-to-face appointment with your provider in their clinic or office | In-person, walk-in care at designated locations, usually with extended hours | In-person care 24/7 when help is needed right away to prevent an adverse health outcome |
| Hours | Varies | Normal clinic hours | Normal clinic hours | Extended hours | 24/7 |
| Cost | \$ | \$\$ | \$\$ | \$\$\$ | \$\$\$\$ |
| When to use | For urgent, non-emergency symptoms, like: <ul style="list-style-type: none"> • Cough • Headaches • Nausea • Rashes • Sore throat • Sprains | For service outside of the clinic, including: <ul style="list-style-type: none"> • Routine visits • Surgery follow-ups • Mental health services • Screenings | For in-clinic services, such as: <ul style="list-style-type: none"> • Routine checkups • Annual physicals • Preventive screenings • Vaccinations • Non-urgent injuries and illness | For health issues or injuries that need prompt attention, but are not serious enough for emergency care, such as: <ul style="list-style-type: none"> • Sprains and strains • Ear pain or infection • Rashes and insect bites • Sore or strep throat | For serious and/or life-threatening situations, for example: <ul style="list-style-type: none"> • Chest pain or heart attack • Shortness of breath • Major illness • Traumatic injury |
| How to access | Set up an account ahead of time so you're prepared if you are sick or injured. Learn more at QuartzBenefits.com/digitaltools | Call your provider's office to schedule a telehealth visit (if available) and get connection instructions | Call your primary care location or clinic to schedule ahead of time | Call your primary care location or clinic first, day or night. They will advise you if you should go to urgent care | Call 911 or go to the nearest hospital emergency department for immediate help |

MyChart keeps everything organized

As a Quartz member, MyChart is your "one-stop-shop" for immediate access to benefits, claims details, plan documents, and more. We've got everything organized for easy access when you need it. Go to QuartzMyChart.com and follow the prompts to get started.

Get the app!

Search for Quartz MyChart in your app store.

Message and data rates may apply.

Prior authorization

Most of the time, you won't need to check with Quartz before getting care. In some situations, though, you might need our okay first before we cover the costs. This process is called prior authorization. You, your doctor, or your nurse will fill out a General Prior Authorization Request Form and send it to Quartz for our review. We will let you and your provider know if the service is covered by your plan (approved) or not covered (denied). If the request is denied, we will tell you how you can appeal the decision. Learn more about prior authorizations and download the forms at [QuartzBenefits.com/PASForms](https://www.QuartzBenefits.com/PASForms).

Referrals

As a Quartz member, you'll never need a referral to see your PCP or other providers within your network.

Note:

- Some specialists may only accept you as a patient if you've been referred by your PCP.
- When getting specialty care, you may need approval from Quartz ahead of time to be sure everything is covered by your plan.

Pharmacy benefits

Quartz does not provide pharmacy benefits for Medicare Select members. To learn about your plan coverage, log in to MyChart at [QuartzMyChart.com](https://www.QuartzMyChart.com).

Assistance is available

Facility services definitions

Understanding common facilities and related services

Health insurance terminology can sometimes be complicated, but this handy guide will help.

| | |
|--|---|
| Ambulatory surgery center | Outpatient surgery, also known as ambulatory surgery, day surgery, day case surgery, or same-day surgery, is surgery that does not require an overnight hospital stay. |
| Anesthetists | Anesthesiology is the medical specialty focused on the total perioperative care of patients before, during, and after surgery. It encompasses anesthesia, intensive care medicine, critical emergency medicine, and pain medicine. |
| Anti-Hemophilic factor | Factor VIII is an essential blood-clotting protein, also known as an anti-hemophilic factor. |
| Audiology | Audiology is a branch of science that studies hearing, balance, and related disorders. Audiologists treat those with hearing loss and proactively prevent related damage. By employing various testing strategies, audiologists aim to determine whether someone has normal sensitivity to sounds. |
| Autism treatment | Autism, or autism spectrum disorder (ASD), refers to a broad range of conditions characterized by challenges with social skills, repetitive behaviors, speech, and nonverbal communication. |
| Behavioral health | Behavioral health is a term that includes many aspects of a person's well-being, such as mental health, substance use, harmful behaviors, or overall emotional wellness. |
| Behavioral health AODA residential/transitional | A residential treatment center refers to a licensed residential facility that is non-hospital based and provides voluntary, non-acute 24-hour individualized clinical treatment from a multi-disciplinary team in a contained, safe, and structured environment. A transitional residential treatment service is a clinically supervised, peer-supported therapeutic environment with clinical involvement. |
| Behavioral health day treatment | Day treatment or day hospital means a non-residential intensive program that provides a mix of psychosocial treatment, education, recreational activities, and follow-up services to alleviate problems related to mental health or substance abuse issues. |

| | |
|--|--|
| Behavioral health inpatient | Psychiatric hospitals, also known as mental health units or behavioral health units, are acute care hospitals or hospital units specializing in treating severe mental disorders, such as major depressive disorder, schizophrenia, and bipolar disorder. Care is provided 24 hours a day, seven days a week, by or under the direction of a psychiatrist or psychiatric nurse practitioner. |
| Birth to Three | The Birth to Three (or Birth to 3) Program is a federally-mandated Early Intervention program (Part C of the Individuals with Disabilities Education Act—IDEA) to support families of children under age three with developmental delays or disabilities. |
| Chiropractic | Chiropractic is an alternative medicine concerned with diagnosing and treating mechanical disorders of the musculoskeletal system, especially the spine. |
| Clinics | A clinic is a health facility where people go for medical care or advice. |
| Clinics - Specialty care | Specialty care means advanced medically necessary care and treatment of specific physical, mental or behavioral health conditions, or those health conditions that may manifest in particular ages or subpopulations that are provided by a specialist, preferably in coordination with a primary care professional or other health care professional. |
| Durable medical equipment/ Home medical equipment | <p>Durable medical equipment is ordered by a health care provider for everyday or extended use in the home. There are many different types of equipment, such as (not all-inclusive):</p> <ul style="list-style-type: none"> • Mobility aids – equipment that helps with getting around, such as canes, walkers, scooters and wheelchairs (including seating systems such as seat and back cushions) • Respiratory equipment - helps with breathing, such as CPAP or BiPAP (machines that use mild air pressure to help you keep breathing while asleep), supplemental oxygen, and nebulizers (machines that convert certain medications into a mist that you breathe in), and suction machines (used to clear the airway of secretions) • Diabetes equipment/supplies including glucose meters and testing supplies, insulin pumps, and continuous glucose monitors • Orthotics (braces) for supporting different body parts (items available over-the-counter are generally not covered) • Hospital beds, patient lifts, traction equipment • Prosthetics (artificial device to replace or augment a missing or impaired part of the body) |

| | |
|-------------------------------|--|
| | <ul style="list-style-type: none"> • Infusion pumps and supplies for drugs that can be safely administered at home • Bone growth (osteogenesis) simulators used to promote healing by applying electrical or ultrasonic current to a difficult-to-heal fracture or fusion site. • Negative pressure wound pumps (wound vacs) |
| Eye clinic | An eye clinic is a medical facility specializing in diagnosing and treating eye-related conditions, often including vision care and eye exams. |
| Family planning center | A family planning center, also known as a reproductive health clinic, is a health care facility that provides a range of services and information related to reproductive health and family planning. These centers typically offer services to individuals and couples who are seeking assistance with planning and spacing their pregnancies, as well as those who wish to prevent or manage sexually transmitted infections (STIs). |
| Home health | Home health care is a wide range of health care services that can be given in your home for an illness or injury. Home health care is usually less expensive, more convenient, and just as effective as the care you get in a hospital or nursing home (skilled nursing facility). |
| Home infusion | Home infusion therapy involves the intravenous or subcutaneous administration of drugs or biologicals to an individual at home. The components needed to perform home infusion include the drug (for example, antivirals, immune globulin), equipment (for example, a pump), and supplies (for example, tubing and catheters). |
| Hospice | Hospice care focuses on a person's last six or less months of life. When curative treatment is no longer an option, hospice professionals work to make the patient's life as comfortable as possible. Hospice care includes palliative care because the goal is to make the patient as comfortable as possible for the time that remains. |
| Hospital | A hospital is an institution that is built, staffed, and equipped for the diagnosis of disease, for the medical and surgical treatment of the sick and the injured, and for their housing during this process. |
| Infusion therapy | In medicine, infusion therapy deals with all aspects of fluid and medication infusion via an intravenous or subcutaneous application. A special infusion pump can be used for this purpose. A fenestrated catheter is most frequently inserted into the localized area to be treated. |

| | |
|---|--|
| Inpatient rehabilitation | An inpatient rehabilitation facility is a free-standing rehabilitation hospital or a rehabilitation unit in an acute care hospital. They provide an intensive rehabilitation program and admitted patients must be able to tolerate three hours of intense rehabilitation services per day. |
| Massage therapy | The manipulation of the muscles and other soft tissues of the body (as by stroking, kneading, or rubbing with one or both hands or an instrument) by a massage therapist for therapeutic purposes (as to relieve pain, promote healing, or improve physical functioning). |
| Narcotic treatment services | Narcotic Replacement Therapy (NRT) is a comprehensive treatment with synthetic opiates approved by the United States Food and Drug Administration (FDA) for opiate-addicted patients. Authorized narcotic replacement medications are methadone, buprenorphine, naltrexone, and levo-alpha-acetylmethadol (LAAM). They are available to patients receiving treatment in a licensed Narcotic Treatment Program (NTP). |
| Nursing home/ Skilled nursing facility | Nursing homes, also called skilled nursing facilities (SNFs), provide a wide range of health and personal care services. Their services focus on medical care more than most assisted living facilities. These services typically include nursing care, 24-hour supervision, three meals daily, and assistance with everyday activities. |
| Open MRI | Open MRIs are configured to provide improved patient comfort while taking images inside the body. They have magnets above and below the patient and wide-open sides. |
| Orthopedics | A branch of medicine concerned with the correction or prevention of deformities, disorders, or injuries of the skeleton and associated structures (such as tendons and ligaments). |
| Pharmacies | A store where medicinal drugs are dispensed and sold. |
| Physical therapy | The treatment of disease, injury, or deformity by physical methods such as massage, heat treatment, and exercise rather than by drugs or surgery. |
| Podiatry | Podiatry is a branch of medicine that focuses on the diagnosis, treatment, and prevention of conditions affecting the foot and ankle. |
| Portable X-ray supplier | Portable X-ray suppliers provide diagnostic imaging services at patients' locations - most often residences, including private homes and group living facilities, such as nursing homes - rather than in a traditional clinical setting, such as a doctor's office or hospital. |

|-------------------------------|--|
| Practice location | A practice location is the health care facility where a physician spends the largest number of hours per week engaged in patient care. They may practice additional hours at other locations, too. |
| Radiology | Radiology is a medical specialty that uses imaging technologies, such as X-rays, CT scans, and MRIs to diagnose and treat diseases. |
| Renal dialysis unit | A ward where individuals with kidney failure receive dialysis treatment to remove waste products and excess fluid from their blood. Usually, outpatients may stay overnight if needed. |
| Sports medicine clinic | Sports medicine is a branch of medicine that deals with physical fitness and the treatment and prevention of injuries related to sports and exercise. |
| Urgent care | Urgent Care Medicine provides immediate medical services in an outpatient care location for treating acute and chronic illness and injury. |
