Disclaimer

These coding and reimbursement policies serve as a guide to assist providers in accurate claims submissions and to outline the basis for reimbursement. The determination that a service, procedure, item, etc., is covered under a member's benefit plan is not a determination that the provider will be reimbursed. Services and items must also meet Quartz provider and billing guidelines appropriate to the procedure and diagnosis.

Providers must follow proper billing and submission guidelines, including the use of industry standard, compliant codes on all claim submissions. Services should be billed with Current Procedure Terminology® (CPT) codes, Healthcare Common Procedure Coding System (HCPCS) codes, and/or revenue codes. These codes denote the services and/or procedures performed and, when billed, must be fully supported in the clinical documentation.

Quartz coding and reimbursement policies apply to both participating and non-participating providers and facilities unless a specific exception is stated in the policy.

If proper coding/billing guidelines or current reimbursement policies are not followed, Quartz may:

- Reject or deny the claim
- Recover and/or recoup claim payment
- Adjust the reimbursement to reflect the appropriate services and/or procedures performed.

Quartz utilizes claim editing software to assess coding and billing accuracy on claims.

From time to time, Quartz may, in its sole discretion, revise these policies. When there is an update, Quartz will publish the most current policy to Quartz's Provider Manual.

Compliance

Quartz conducts post-payment reviews and audits to ensure policy compliance. Misuse of codes, modifiers, or exceeding service limits may lead to provider education, recoupment, or other corrective action. Providers must submit supporting documentation, if requested, as part of claim review processes.
